

Equally Rounded Corners

<code>-webkit-border-radius</code>	Webkit
<code>-moz-border-radius</code>	Firefox
<code>border-radius</code>	Standard

Individually Rounded Corners

Webkit

<code>-webkit-border-top-left-radius</code>
<code>-webkit-border-top-right-radius</code>
<code>-webkit-border-bottom-left-radius</code>
<code>-webkit-border-bottom-right-radius</code>

Firefox

<code>-moz-border-radius-topleft</code>
<code>-moz-border-radius-topright</code>
<code>-moz-border-radius-bottomleft</code>
<code>-moz-border-radius-bottomright</code>

Standard

<code>border-top-left-radius</code>
<code>border-top-right-radius</code>
<code>border-bottom-left-radius</code>
<code>border-bottom-right-radius</code>

Box Shadow

<code>-webkit-box-shadow</code>	Webkit
<code>-moz-box-shadow</code>	Firefox
<code>box-shadow</code>	Standard

Syntax

`5px 5px 5px #000000`
x-offset, y-offset, blur, color

Multiple Columns

Webkit

<code>-webkit-column-count</code>
<code>-webkit-column-gap</code>

Firefox

<code>-moz-column-count</code>
<code>-moz-column-gap</code>

Standard

<code>column-count</code>
<code>column-gap</code>

Text Shadow

`text-shadow`

Syntax

`5px 5px 5px #000000`
x-offset, y-offset, blur, color

`filter: dropshadow()`

Syntax

`(color=#000000, offx=5, offy=5)`
color, x-offset, y-offset

RGBA

`background-color: rgba(R, G, B, A)`
`color: rgba(R, G, B, A)`

Syntax

`255, 255, 255, 1`
Red, Green, Blue, Opacity
(0-255, 0-255, 0-255, 0-1)

Font Face

`@font-face`

`font-family: ' ';`
`src: url('url_of_font_file');`
`src: local(''),`
`url('url_of_font.woff') format('woff'),`
`url('url_of_font.ttf') format('truetype');`

More info by Paul Irish: <http://bit.ly/cC76RC>

Box Sizing

<code>box-sizing: content-box</code>
<code>-moz-box-sizing: content-box</code>
<code>-webkit-box-sizing: content-box</code>
<code>-ms-box-sizing: content-box</code>
<code>-o-box-sizing: content-box;</code>
<code>-icab-box-sizing: content-box;</code>
<code>-khtml-box-sizing: content-box;</code>

Syntax

`content-box`
acts like a standard box-model element

`border-box`
padding and border render inside the box

Box Resize

`resize` both
vertical
horizontal

`min-height`

`min-width`

`overflow: auto`

Outline

`outline`

Syntax

`5px dashed #000000`
thickness, style, color

Gradients

`-webkit-gradient`

Syntax

`linear`
type of gradient

`left bottom`
`right bottom`
`left top`
`right top`
position of start & end
`color-stop(0.5, rgb(R,G,B))`
position & color of stops

`-moz-linear-gradient`

Syntax

`left`
`right`
`top`
`bottom`
position of start & end
`rgb(R, G, B) 50%`
position & color of stops

Selectors

Incredibly powerful,
but we couldn't
possibly fit them on
this sheet.

Info at 456 Berea Street:
<http://bit.ly/cKO24D>

CSS3 is not yet supported in all browsers. Graceful degradation in older browsers such as IE6 (arghh) is highly recommended.
